MTH

Walvoil Multifunction Handle

**MTH
MULTIFUNCTION
HANDLE**

- Ergonomic design for comfort high level
- Proportional controls (up to 5) and on-off (up to 12) on front and operator sides
- Right and left hand configuration
- Capacitive operator presence detection with lighting signal
- With soft rubber support for the hand
- Backlight options

The new MTH handle has been developed by WALVOIL to combine the requirements of ergonomics and functionality for different mobile applications.

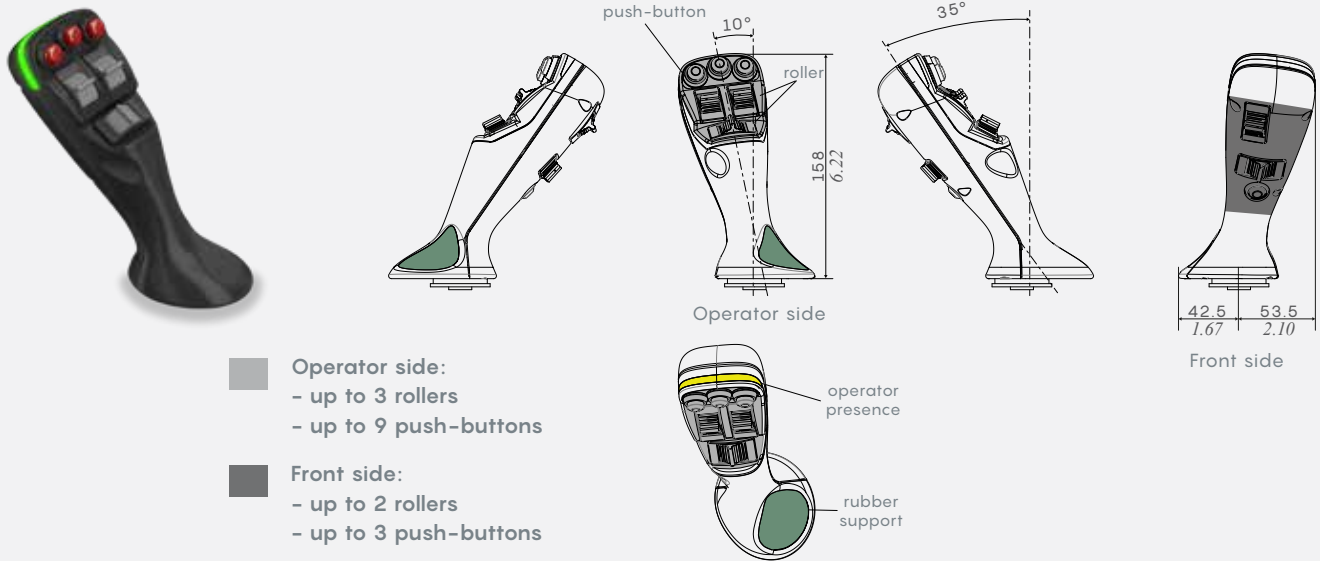

The shape of the handle makes it suitable for an intensive use, ensuring high levels of comfort for the operator.

The grip can be configured with a high number of push-buttons (up to 12) and proportional rollers (up to 5), giving the operator the possibility to control the complete machine functionality just with one hand.

The LEDs offer to the operator a quick and simple visual feedback about the status of the system.

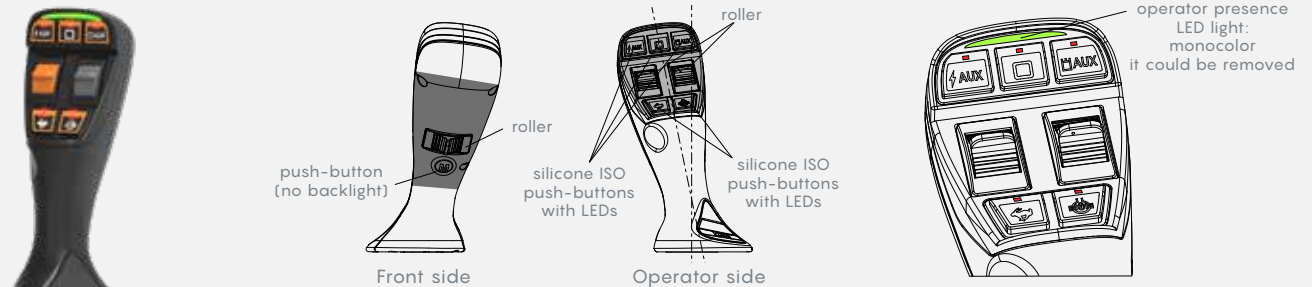

CONFIGURATION EXAMPLE

Standard push-buttons configuration

- Operator side:**
 - up to 3 rollers
 - up to 9 push-buttons
- Front side:**
 - up to 2 rollers
 - up to 3 push-buttons

Example with backlight configuration

- Operator side:**
 - up to 3 rollers
 - up to 5 silicone push-buttons with backlight
- Front side:**
 - up to 1 roller
